KALIMULLAH KHAN

Senior Software Engineer

Email: kalymkhan007@gmail.com

Mobile: +91 7208651794

Linkedin: https://www.linkedin.com/in/kalymkhan007

SKILLS

Frontend: React.js, Next.js, Vercel AI SDK, Remix.js, Gatsby.js, HTML, CSS, Tailwind, Bootstrap.
State Management: Redux, Redux-Thunk, Context API.
Backend: Node.js, Express, Firebase.
Testing: Jest, React Testing Library.
DevOps/Tools: Docker, GIT, GitHub Actions, Webpack, Vite.
Cross-domain/General: JavaScript, Typescript, GenAI, Performance Optimization, Agile methodologies.

EXPERIENCE

Inception AI (G42)   *Senior Software Engineer* | April 2025 - present

- **Board Observer (** AI-powered Meetings App **)**
  Tech Stack: Next.js, Vercel AI SDK, Python FastAPI, Chat GPT-4.

  o Developed an AI-driven meetings platform with core features like real-time audio/video, participant tracking, and calendar sync.
  o Built an **automated meeting summarizer** that generates concise AI summaries from transcripts, **cutting post-meeting review time by 90%**.
  o Enabled **live document sharing** with **per-page AI insights**, enhancing real-time document collaboration.
  o Integrated a **chat assistant using RAG** to enable context-aware Q&A on shared documents.
  o **Optimized chat performance** using the **React Window library** for virtualization, resulting in **35% faster response times** and smooth multi-turn conversations.
  o Delivered a scalable, high-performance backend with **Python FastAPI** and **Chat GPT-4** integration.

Priceline (Booking Holdings | Fortune 500)   *Software Engineer Level 2* | July 2022 - April 2025

- **Priceline-Pal (** AI-powered Chat Assistant **)**
  Tech Stack: React.js, Next.js, Node.js, Fastify, Chat GPT 4 AI Model, Microsoft Rush Monorepo.

  o Designed and implemented an intelligent document-scanning workflow using the **RAG (Retrieval-Augmented Generation) framework**, enabling accurate and efficient information extraction for Priceline employees from vast internal knowledge bases.
  o Integrated a real-time document scanning solution to process and analyze user-uploaded files, ensuring a seamless and responsive experience through **streaming responses**.
  o Leveraged the **Chat GPT 4 AI Model** to provide contextualized insights and actionable recommendations, significantly reducing time spent on document analysis.
  o Enhanced the chat assistant with contextual memory and multi-turn conversation capabilities to support complex user queries and improve interaction quality.

- **SmartHire-AI (** AI-powered hiring assistant Web app **)**
  Tech Stack: React.js, Next.js, Node.js, Express, Google Gemini AI Model, Ant Design.

- Led the development of an **AI-driven resume parsing and matching system**, improving **candidate-job alignment accuracy** by **50%**.
- Designed a **scalable full-stack application** using **Node.js**, **Express**, and **Next.js**, integrating **Google Gemini AI** for **intelligent processing**, **internationalization**, **OAuth authentication**, and **real-time analytics**.
- **Dockerized** the application for **consistent environments** and **streamlined deployments**.
- Spearheaded **Generative AI-powered features**, including a **job description generator** (**+30% keyword relevance**) and **automated offer letter generation** (**-60% drafting time**).
- Enhanced a **chat assistant** with **contextual memory**, **multi-turn conversations**, and **actionable insights**, reducing **document analysis time**.

- **C3-Assist - (** A micro frontend Customer Service App **)**
  Tech Stack: React.js, Remix.js, Typescript, Graph QL, Styled Components.

- Developed a customer service application for Priceline, streamlining grievance resolution processes such as refunds, cancellations, and rebookings, resulting in a 40% reduction in average resolution time and improved customer satisfaction ratings.
- Seamlessly integrated custom Remix apps i.e., Isomorphic React - Server Side Rendering (SSR) with Facebook's Kustomer CRM, enhancing Priceline's customer service by providing optimal solutions for agents.
- Applied ATOMIC design principles to create modular and scalable UI for enhanced user experiences.
- Demonstrated expertise in implementing SOLID principles to develop maintainable and extensible software solutions for optimal code quality.
- Integrated GraphQL services seamlessly, elevating application performance through technical finesse.
- Validated and sanitized user inputs to prevent XSS (Cross-Site Scripting) and injection attacks, using libraries like DOMPurify to sanitize HTML effectively.
- Demonstrated expertise in debugging and troubleshooting, optimizing functionality and achieving improved performance metrics across the board.

AxiomIO IT Services Pvt Ltd   *Software Engineer* | July 2021 - July 2022

- **MIBL-POSP (** Salespersons onboarding and management platform **)**
  Tech Stack: React.js, JavaScript, Redux, Redux-Thunk, Sass, Bootstrap 4.

- Held a senior position in a 6-member Front-end team, entrusted and coordinated with 4 business partners toward conceiving an Admin portal catering to a massive user base of 1000+ Salesperson and Product Owners.
- Actively harnessed the powers of React, Redux, and Redux-Thunk for impeccable state management.
- Instituted a frictionless payments and subscriptions mechanism by flawlessly integrating the robust Stripe service, significantly enhancing the user experience.
- Harnessed the prowess of React-Bootstrap, Sass, and RESTful services to structure the application's Front-End architecture, optimized performance, accommodating a diverse array of devices and browsers without a hitch.

Raw Engineering Inc   *Application Engineer* | Sept 2019 - July 2021

- **Inseego.com**
  Tech Stack: React.js, JavaScript, Next.js, React-Bootstrap, Sass, ADA compliance, ContentStack CMS.

- **Pella Re-Design (3 websites)**
  Tech Stack: React.js, JavaScript, Gatsby.js, ADA compliance, CSS, Contentstack Headless CMS.

- Developed 100+ web pages and created Templates to generate multiple pages following the same design and reusable components using React and Next.js.

- Maintained high performance standards with metric checks, monitoring key indicators such as First Contentful Paint (FCP) and Largest Contentful Paint (LCP) through Lighthouse and Google PageSpeed Insights .
- Instated Static Site Generation (SSG) and Isomorphic React - Server Side Rendering (SSR) methodologies, aligning the development process with precise project requisites.
- Integrated third-party functionalities like Marketo forms & Hotjar, enhancing application extensibility.
- Collaborated on creating Project Boilerplate for scalability and maintenance.
- Prioritized Accessibility, ensuring AA standard ADA compliance by using SiteImprove and a11y tools for regular audits, and strictly adhering to WCAG standards.

Raw Engineering Inc   *Trainee Application Engineer* | May 2019 - Sept 2019

- **Pella Website Migration**
  Tech Stack: React.js, JavaScript, Gatsby.js, ADA compliance, CSS, Contentstack Headless CMS.

- Learned and Implemented React and JavaScript to create websites with Gatsby & GraphQL.
- Translated intricate designs into polished code, breathing life into concepts.
- Pioneered creation of diverse components and reusable templates for rapid development.
- Instrumental in refining CMS schema, aggregating and integrating crucial data.
- Actualized clients' visions into compelling, functional websites.

EDUCATION

- Masters in Computer Science Mumbai University, India 2018
